

Pre-Op Instructions for Papoose/Sedate for Children

1. NOTHING to eat or drink 4 hours prior to check-in (Patients may have small amounts of water)
2. You must arrive 1 hour prior to procedure time (Reminder card will provide exact check-in time)
3. Please inform the staff of any medical changes when checking in
4. Parents are not allowed in the treatment area and are not allowed to leave the building during treatment.

The sedation that we use is a mixture of Hydroxyzine Hydrochloride and Midazolam Hydrochloride (sleepy juice) and we administer sedation to your child based in his/her weight.

Our doctors have over 10 years experience with this procedure, so your child is in great hands. The most important thing is that the necessary treatment your child needs is completed in the very best and safest way possible.

If you need to cancel or reschedule, please give us a 48 hour notice to avoid being charged a \$50.00 fee.

thank you
